Dear Jason,

I am not sure I can adequately express how much your "magic touch" enhanced our employee appreciation celebration. You were able to entertain our plant personnel and our sales and administrative staff. This was no small feat, requiring multiple shows, two locations, and even making magic happen at midnight. Many of our employees are still talking about your performance!

I can think of no higher compliment, or recommendation, than to let you know that you will be entertaining at a Lithographics event in the near future. Thanks again for everything.

Sincerely,
